

HEALTH AND SANITATION CERTIFICATE

To Whom it may concern

It is certified that we have visited the site of Guru Ram Dass Public School, Lehra Mohabbat, Bathinda. The school is located in clean and pollution free environment. R.O. water is used for supply of drinking water. The wastage of R.O. water is also used for consumption in growing plants. The sewage condition of the school is the best. The school has its own septic tank which is decomposed and then used for agriculture land of school. The toilets and washrooms are in good hygienic condition.
